# HÖGLUND ART GLASS STUDIO & GALLERY

Welcome and enjoy your visit!

World-renowned glass artists Ola Höglund and Marie Simberg-Höglund welcome you to their glass studio and gallery to discover the magic art of glassmaking.

Höglund Art Glass is situated in the creative haven of the Nelson region, just 25 minutes drive from Nelson City, at the northern point of the South Island of New Zealand.

In their creative work, Ola and Marie draw their inspiration from the colour of the dramatic countryside, contrasting from vibrant ruby red and burnt orange sunsets to soft tones of the sunrise, the green shades of the native bush and the aqua blue clear waters of New Zealand - creating truly exquisite works of glass art that have earned them worldwide praise.

The glass gallery features a wide range of unique, handblown vases, bowls, goblets, platters, perfume bottles and paperweights, complemented by a selection of beautiful glass jewellery, created exclusively by hand in striking colours and designs.

The internationally recognised Höglund family work with simple wooden tools and stainless steel blow pipes to create the freeform designs in the complex glassmaking techniques of Ariel, Graal, Sommerso, Incalmo, Engraving, Painting and Etching.

Art glass by Ola and Marie is a singular work of art. Each unique piece explores the fluid brilliance of the crystal clear glass and reflects the movement and beauty of the natural environment - a significant addition to any fine glass collection.
