

Höglund Art Glass is unique

Handblown glass is an art form, which bears the 'fingerprint' of the craftsman in every piece created. Each handmade piece of Höglund Art Glass is an individual work of art, made from molten, liquified material - therefore no two pieces will ever be the same.

This is the beauty of handblown glass.

RAINFOREST GRAAL COLLECTION
In their Rainforest Graal Collection, glass artists Ola Höglund and Marie Simberg-Höglund take their inspiration from the pure beauty and simplicity of nature. From the warm colours, delicate light and smooth shapes of the landscape, the vibrant energy of the earth and the fresh green lushness of 'the Forest of Rain'—the Rainforest Graal Collection has been born.

Light bounces off the surface of these brilliant pieces and is absorbed and distorted to create deep shadows and stunning three-dimensional effects within the glass. The layers play with the light, creating a luxurious translucence that captivates the gaze and draws you deep inside. These Masterpieces trap the soft colours and shapes of nature, suspending energy, movement and depth as if in mid air.

Ola and Marie are regarded as the most inspirational, leading glass artists in their field. Their unique Graal work is internationally renowned and sought after by public and private collectors worldwide. Any Graal piece from this fine collection is an investment that will appreciate in value over time.

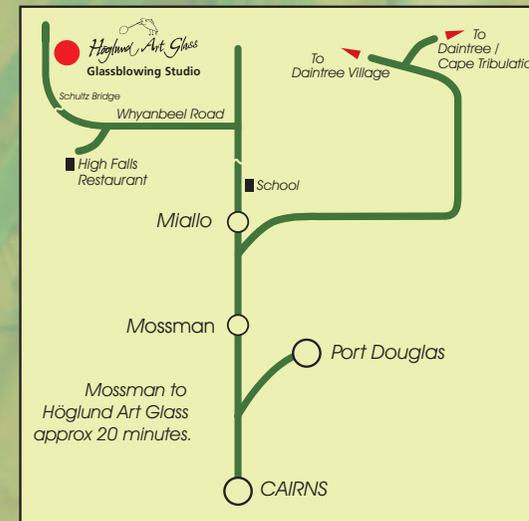

Enjoy the scenic drive to Whyanbeel, a hidden gem in a secluded valley against a backdrop of stunning rainforest at the foot of Manjal Jimalji and lush mountain ranges. 40 minutes drive north of Port Douglas via Mossman and Miallo. Our studio is **towards the end of Whyanbeel Road**. Cross the Schultz Bridge and continue until you see **580**, our **open sign** and the **red flags** on the right hand side – you can't miss it!

Visitors welcome 1 June - 31 October
Open 10am – 4pm
(closed Wednesday - Thursday)

Höglund Glassblowing Studio

Welcome to the home of
HÖGLUND ART GLASS

This 'jungle glass studio' is situated in the tropical rainforest of Australia's Far North Queensland at the foot of Manjal Jimalji and lush mountain ranges, nestled in the beautiful Whyanbeel Valley north of Port Douglas, bordering on the Daintree World Heritage National Park.

Each one-of-a-kind masterpiece is a singular work of art, signed by the artist - a true collector's treasure.

Art Glass by Ola Höglund and Marie Simberg-Höglund is totally unique. It explores the fluid brilliance of the crystal clear glass and reflects the movement and beauty of the natural environment.

In their work, Ola and Marie draw their inspiration from the colours of the vivid Australian countryside, contrasting from vibrant ruby red and burnt orange to soft tones of the sunrise in the outback and the blue and green shades of the rainforests and clear waters to create truly exquisite works of glass art that has earned them worldwide praise.

Ola and Marie's Art Glass features in public and private collections worldwide. They have exhibited their work in Australia, New Zealand, Germany, Sweden, Denmark, USA, Hong Kong, Singapore, Dubai, Thailand, Indonesia, Taiwan, China, Japan and India.

Höglund Art Glass is internationally recognised for the complex glass techniques used such as Ariel, Graal, Sommerso, Incalmo, Engraving, Painting and Etching.

We invite you to Höglund Glassblowing Studio to enjoy a unique experience, where light and glass play a mesmerising game with each other in the creation of beautiful handblown art glass.

A wide collection of stunning glass jewellery and blown art glass is on display, created exclusively by hand in striking colours and designs.
